THE CYBER HERO PLEDGE

(hand on heart and solemnly swear):

- I will not give out personal information such as my address, telephone number, parents' work address/telephone number, or the name and location of my school without my parents' permission.
- I will tell my parents right away if I come across any information that makes me feel uncomfortable.
- I will not give out my passwords to anyone (even my best friends)
- I will be a good online citizen and not do anything that hurts other people or is against the law or my school's rules.
- I will always, think before I click!

And don't forget this applies to your computer, cell phone, tablet, or even gaming console that can connect to the internet.

As a digital citizen, we encourage you to share your Cyber Hero pledge with your friends, classmates and family, in order to create a happy, fun and educational online community.

Be a responsible cyber citizen... A CYBER HERO!

Welcome to the motherboard
CAN YOU SPOT THE BAD GUY?

FAMILY AGREEMENT

We agree to follow these rules, with the help of family and friends, when we use the Internet, mobile phones, tablets and game consoles:

No 1 Rule: Only get together with people you meet online with your parents permission and/or supervision. It is very dangerous to meet up with people you meet on the internet as they may not be who they seem to be. **Always remain ALERT!**

A ASK FIRST

Especially if you are visiting websites you haven't been to before, if you get emails or links from people you don't know, if you want to make an online purchase or if you are uploading photos.

L LIMIT PERSONAL INFORMATION

Don't share your location, school name or phone number.

E EASY TO REMEMBER, BUT HARD TO GUESS PASSWORDS

Never share your password with anyone.

R RESPONSIBLE ONLINE BEHAVIOUR

Don't do anything online to hurt someone, that is against school rules, or against the law. Respect other people online, and only connect with people you know in real life.

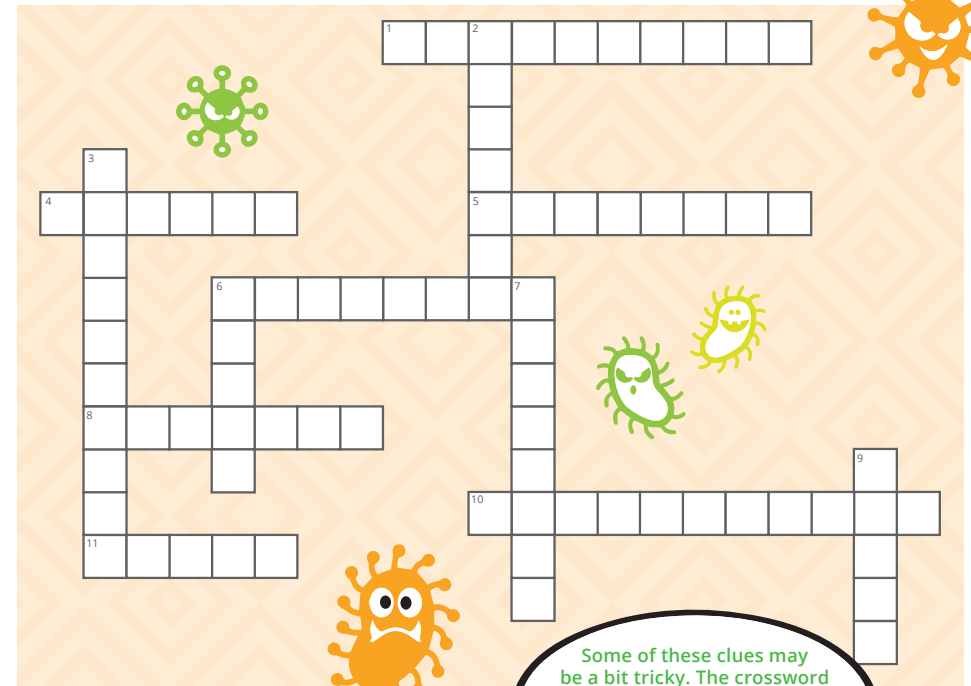

T TALK TO YOUR PARENTS

Tell your parents if anything makes you feel uncomfortable.

The internet can be a scary place, but there is no avoiding the world wide web, just make sure when you browse you always remain ALERT!

CROSSWORD PUZZLE

Some of these clues may be a bit tricky. The crossword can be fun for the whole family! Ask your parents or brothers or sisters for help. Let's test their cyber hero status.

ACROSS

- Like a bully at school, but found on the internet.
- The name of a bad guy that breaks into your computer using code (like the ones you see on movies).
- When the email address looks like it is from the real person, but has been sent by a cybercriminal.
- When you login to an account you use a username and _____.
- The page on the internet that you visit that starts with www.
- Where you have friends online or share status updates and pictures.
- When you send letters on computers.

DOWN

- When you want to go on the internet you open this.
- When cybercriminals take over your computer files and won't give them back until you give them money.
- A fake email that tries to get you to give out details because it looks real.
- When you take files from the internet and put them on your computer.
- A piece of code that destroys data on a computer. It's also something that makes you sick.
