

For Your Eyes Only

Mission Lead: Tech Specialist Gadget

Mission Briefing:

The success of our agents depends on the tools we give them. The right loadout makes the mission, no matter how straightforward or complex.

The Workforce Risk Division is giving your team limited-time access to some of our most valuable assets. Our mission partners at KnowBe4 are providing free visibility into their entire library of training content via their Training Preview campaign.

Your mission is to engage with the Training Preview content and familiarize yourself with the depth and breadth of content our partners at KnowBe4 have to offer your agents and specialists.

Mission FAQ Follows:

What Types of Security Awareness Topics Does Training Preview Help With?

Training Preview is designed to help organizations with some of the most significant cyber risks currently facing the Human Risk Division: phishing and email threats, AI threats and deepfakes, social engineering and ransomware to name a few.

How Many Assets Can I View in the Training Preview?

The KnowBe4 library contains 1,000+ training assets. The preview is intended to demonstrate the breadth of the library across formats, topics and audiences.

Do the Assets in Training Preview Include Interactive Content?

Yes. The preview highlights interactive training modules as a key content type, alongside videos and games.

How Do I Browse Content in the Training Preview Portal?

The ModStore's search feature leverages AI to analyze search intent and customer-specific attributes to surface recommendations and improve search efficiency and accuracy. You can also browse and search by common filters such as Title, Category, Language and Content topics.

What Is the ModStore Preview Portal?

The ModStore Preview Portal is the browsing experience within Training Preview. It allows you to explore the library and review what content types and topics are available.

Access the Training Preview at the Secure Drop Site Below:
