An Introduction to Personal Protective Equipment
This course provides an overview of personal protective equipment, or PPE, for employees. In this course, employees will understand why personal protective equipment is required in the workplace and the benefits it provides. Employees will learn about the different types of PPE and the varying protections they offer, OSHA workplace standards, as well as employer and employee responsibilities to ensure proper use.
(18 min)

An Introduction to Diversity, Equity, and Inclusion in the Workplace
This course will provide all employees with a foundational knowledge of diversity, equity, and inclusion (or DEI) in the workplace and why it matters.
(15 min)

Anti-Bribery and Corruption
In this module, we will look at the definition of bribery, its implications and threats, as well as how to report any corrupt behaviour in South Africa.
Popcorn Training
(15 min)

Avoiding Bribery in the Workplace
In this course, employees will learn how to differentiate between a gift and a bribe. In addition, employees will learn about types and examples of bribery, the laws enacted to prevent bribes and corrupt behavior, as well as potential penalties for violating these laws.
(10 min)

Basics of the Fair Credit Reporting Act (FCRA)
The course will provide basic information about the Fair Credit Reporting Act (FCRA), including its purpose, regulatory requirements, and what you can do to be compliant with the law.
(10 min)

= New Content for April
Blackout Period
In this course, employees will learn about the legal restrictions for trading company stock during a company-imposed blackout period. This course will explain what is prohibited in a blackout period, who is subject to these restrictions, and the penalties for noncompliance.
(9 min)

Bloodborne and Airborne Pathogens
In this course, employees will gain an understanding of the dangers of pathogens and how infectious diseases can be transmitted. Employees will recognize typical workplace precautions to limit or eliminate exposure or transmission of pathogens and identify precautions to take if exposure to potential pathogens occurs.
(15 min)

Code of Conduct - Quickly explained
It is not always exactly clear what is right and wrong at work. And even if it is, what steps should employees take if they, for example, witness discrimination or bribery? Should cases which seem harmless also be reported? An increasing number of organizations have developed a Code of Conduct, precisely to provide guidance and clarity.

Discovering Diversity Mobile-First Module
This module will help employees learn about the value of diversity in the workplace. Through this module, employees will learn about the visible and invisible aspects that comprise diversity.
(3 min)

Establishing Trust with Diverse Teams
This course is intended for team leaders to learn how to best support their diverse teams by creating common ground, exploring connections, and establishing trust. Leaders can apply these best practices with their team for both work and personal matters and acknowledge adverse events or other challenging circumstances.
(10 min)
Ethics & Code of Conduct
This series provides an introduction to ethical behavior in the workplace and an organization's Code of Conduct. They will also learn how an organization's Code of Conduct provides guidelines for ethical decision making and potential penalties for lack of compliance.

- Introduction (5 min)
- Handling Company Resources (15 min)
- Managing Company Relationships (15 min)
- Navigating the Work Environment (15 min)

Insider Trading
In this course, all employees gain an understanding of the legal restrictions surrounding the types of information they can and cannot share with other individuals outside of an organization. This course will provide information about material nonpublic information and ways to prevent disclosing such information, especially when a company is in the process of becoming publicly traded.

(14 min)

Facemasks at Work: 8 Essential Tips (COVID-19)
Training dedicated to prepare team members in returning to the office from working from home due to Covid-19 by educating about Personal Protective equipment, specifically face masks.

(5 min)

Office Ergonomics
This course provides an introduction to office ergonomics, explaining what it is and how ergonomics contributes to a safer work environment. By the end of this course, learners will be able to recognize ergonomic risk factors that could lead to work-related injuries.

- Office Ergonomics Made Easy: Introduction (7 min)
- Office Ergonomics Made Easy: Optimal Conditions (15 min)
- Office Ergonomics Made Easy: Impactful Changes (10 min)

External Communications
In this course, all employees gain an understanding of the legal restrictions surrounding the types of information they can and cannot share with other individuals outside of an organization. This course will provide information about material nonpublic information and ways to prevent disclosing such information, especially when a company is in the process of becoming publicly traded.

(12 min)

Microaggressions
In this series, learn what a microaggression is and the different forms they can take. Learners will gain a better understanding of the bias microaggressions reflect and the impacts they can have on individuals and the organization.

- Introduction (8 min)
- Taking Action (10 min)
- Taking Responsibility (10 min)

FERPA and HIPAA
This series is designed to familiarize faculty and staff in schools with the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA).

- Faculty and Staff (15 min)
- Faculty and Staff K-12 (15 min)

Patient Data Protection Act (Germany)
Examination results, laboratory findings, and medical records - all on your smartphone? The German “Patient Data Protection Act” is intended to prepare the health care system for a new medical infrastructure that gives patients control over their own health data and medical service providers new diagnostic and therapeutic tools, while keeping data security in mind.

Data Minimization
In this video module, employees will learn the importance of data minimization by taking a hint from Goldilocks and learn how to collect data without exposing your organization or your customers. The right data minimization strategy gets data protection “just right.”

(2 min)

Data breaches - What should you do?
Data protection (GDPR) is becoming increasingly important for employees in more and more industries and organizations. Stringent legal restrictions apply, especially when handling personal data. What happens if such data is lost or falls into the wrong hands? This module shows employees how to respond appropriately in the event of data loss, so that damage can be avoided or at least limited.

(5 min)

Do Your Part for Privacy
In this video module, employees learn that while privacy principles may appear abstract, there are some practical actions they can take to protect personal information. This video is aligned with GDPR definitions and privacy principles.

(2 min)

Foreign Corrupt Practices Act
In this course, employees will learn how to identify and avoid violations of the Foreign Corrupt Practices Act (FCPA). Employees will learn the anti-bribery and accounting provisions of the FCPA, actions that could violate those provisions, and actions that are acceptable under the law.

(30 min)

Fraud, Waste, and Abuse (FWA)
In this course, employees will learn how fraud, waste, and abuse are a significant problem in healthcare today and how it impacts healthcare, organizations, and individuals.

(3 min)

Getting to Know the GDPR Mobile First Module
This mobile-first training module teaches employees the basics about the law, how the GDPR treats personal data, ways to process the data ethically, and how to honor people's rights.

(11 min)

= New Content for April
Intellectual Property
In this training module, employees will learn what constitutes intellectual property (IP). This module provides information on how to protect IP using smart computing practices and avoid inadvertent sharing of information with others.
- Intellectual Property (2 min)
- Intellectual Property with Quiz (2 min)

Introduction to Anti-Money Laundering
In this course, employees are introduced to the illegal practice of money laundering and its far-reaching impacts. They learn about the three stages of money laundering, laws and other efforts to combat it, common red flags, and their responsibility to report any suspicious activity.
- The GDPR (2 min)
- The GDPR with Quiz (2 min)
- GDPR is Not a Four-Letter Word (3 min)

HIPAA
In these training modules, employees will learn how the Health Insurance Portability and Accountability Act (HIPAA) sets standards and responsibilities for protecting customers’ Personal Health Information (PHI). These modules discuss what constitutes PHI and potential consequences if that information is exploited.
- HIPAA Compliance (2 min)
- HIPAA Compliance with Quiz (2 min)
- HIPAA: Business Associates (25 min)
- HIPAA: Covered Entities (30 min)
- HIPAA: Hybrid Entities (30 min)

How To Handle Payment Card Data Mobile First Module
In this mobile-first training module, employees will learn how we access, retain, and delete cardholder data; ways to send payment card data securely; tips to keep cardholder data safe at work; and when and how to report incidents.
- How To Handle Payment Card Data Mobile First Module (9 min)

How To Handle Personal Data Mobile First Module
In this mobile-first training module, employees will learn how we store personal data, how to share data securely, and when and how to destroy personal data.
- How To Handle Personal Data Mobile First Module (7 min)

Introduction to Emergency and Crisis Management
In this course, employees are introduced to the concept of emergency and crisis management planning, and learn specific actions to take during common crises. They discover the proper way to evacuate and shelter in place, as well as how to handle natural disasters, active shooter situations, and malicious threats. Employees also learn the warning signs of possible threats and commonsense practices for maintaining security.
- Introduction to Emergency and Crisis Management (15 min)

Global Privacy Laws
In this training module, employees will learn how nations address Global Privacy differently. This module discusses ways to respect the privacy laws and regulations of your customers' data and avoid penalties for noncompliance.
- Global Privacy Laws (2 min)
- Global Privacy Laws with Quiz (2 min)

GDPR
In this training module, employees will learn how the General Data Protection Regulation (GDPR) provides standards and responsibilities for protecting the data of European Union Citizens.
- The GDPR (2 min)
- The GDPR with Quiz (2 min)
- GDPR is Not a Four-Letter Word (3 min)
PCI
In this series, employees will learn about the importance of protecting cardholder data. This video shares PCI best practices for handling customer information and how to be aware of red flags.

- **Best Practices (2 min)**

- **PCI Tips for Handling Cards at the Point of Sale with Quiz (3 min)**

Payments, Cards, and Information Mobile First Module
This mobile-first training module teaches employees about the lifecycle of payment card transactions, information on and about payment cards, and where fraud can occur.

(5 min)

PCI at the Point of Sale Mobile First Module
This mobile-first training module teaches employees how to process a secure transaction, protect cardholder data at the point of sale, identify common scams at the point of sale, inspect equipment, and report an incident.

(8 min)

PCI DSS for IT Mobile First Module
In this mobile-first training module, employees will learn about the Payment Card Industry Data Security Standard (PCI DSS) and how to help us meet the six goals of the Data Security Standard (DSS). It is strongly recommended that before taking this module, learners have a basic understanding of PCI.

(8 min)

It’s About Trust Mobile First Module
This mobile-first training module teaches employees what we mean when we say “privacy,” the importance of getting privacy right, uses and consequences of personal data, and their privacy responsibilities.

(8 min)

Making a Commitment to Privacy
This mobile-first training module teaches employees how to be fair and transparent; why we limit the data we collect; and the importance of accuracy, integrity, and accountability.

(8 min)

Managing PCI DSS Mobile First Module
In this mobile-first training module, leaders and managers will learn about the specifics within the Data Security Standard (DSS), how they can protect payment card data, how to lead with Payment Card Industry (PCI) compliance in mind, and how to foster successful vendor relationships. It is strongly recommended that before taking this module, the learner first have a basic understanding of PCI.

(7 min)

Payments, Cards, and Information Mobile First Module
This mobile-first training module teaches employees about the lifecycle of payment card transactions, information on and about payment cards, and where fraud can occur.

(5 min)

PCI at the Point of Sale Mobile First Module
This mobile-first training module teaches employees how to process a secure transaction, protect cardholder data at the point of sale, identify common scams at the point of sale, inspect equipment, and report an incident.

(8 min)

PCI DSS for IT Mobile First Module
In this mobile-first training module, employees will learn about the Payment Card Industry Data Security Standard (PCI DSS) and how to help us meet the six goals of the Data Security Standard (DSS). It is strongly recommended that before taking this module, learners have a basic understanding of PCI.

(8 min)

Privacy Rules and Regulations
In this mobile-first module, employees will learn our approach to privacy laws, what about privacy is most regulated, global privacy laws, and what privacy regulations matter to us.

(8 min)
Privacy Responsibilities
In this video module, employees learn that they play an important role in safeguarding privacy, should stick to your organization's privacy policies and procedures, and need to ask questions if they're ever unsure of how to handle personal information. This video is aligned with GDPR definitions and privacy principles. Some users might find some of the content offensive but it is intended to be a parody - please review to make sure it fits with your organization's culture.
(2 min)

Recognizing Corruption
In this training module, employees will learn how corruption can exist in the workplace. This course provides information on how to avoid corruption and properly manage gifts, entertainment, and favors.
• Recognizing Corruption (2 min)
• Recognizing Corruption with Quiz (2 min)

Truth About Trust
This video module establishes ways to maintain trust and ensure data privacy. Employees will learn about types of personal information, how to handle the information and what to do if there is a problem.
(2 min)

Putting the GDPR Into Practice Mobile First Module
This mobile-first training module teaches employees how we stay accountable, how and when we can process data, the standards for data security, how to work with third parties, and about our notification obligations.
(10 min)

What Makes Data Personal
This mobile-first training module teaches employees the different types of personal data, what counts as sensitive personal data, and advanced ways we can keep data confidential.
(8 min)

When the Card is Absent Mobile First Module
This mobile-first training module teaches employees how to handle card-absent situations, how to spot common scams, and when to report incidents.
(9 min)

Why Are We Still Here?
This video module establishes the importance of sexual harassment for all in establishing a safe and supportive work environment and eliminating the harmful effects sexual harassment can have on an individual and organizational level.
(3 min)
Avoiding Identity Theft
This information document highlights best practices for avoiding identity theft.
