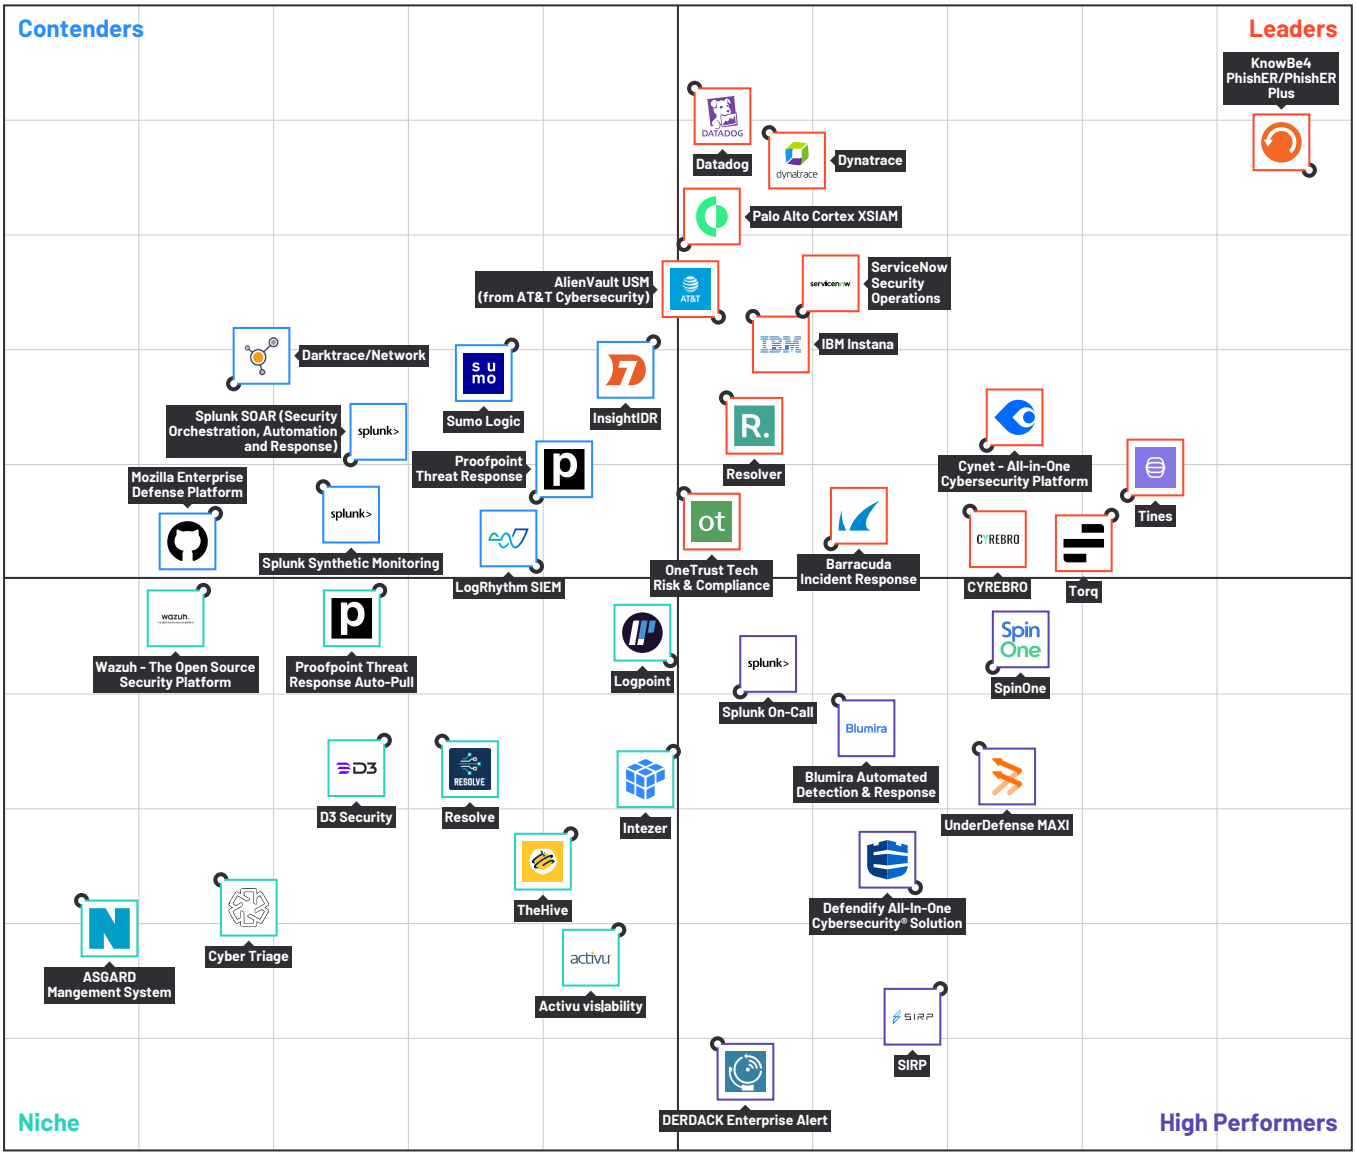
Grid® Report for Incident Response
Summer 2025

Incident Response Software



G2 Grid® Scoring

(Incident Response Software continues on next page)

Incident Response Software (continued)

Incident Response Software Definition

Incident response software automates the process of and/or provides users with the tools necessary to find and resolve security breaches. Companies utilize the tools to monitor networks, infrastructure, and endpoints for intrusions and abnormal activity. They then use the programs to inspect and resolve intrusions and malware in the system. These products provide capabilities to resolve issues that arise after threats have bypassed firewalls and other security mechanisms. They alert administrators of unapproved access of applications and networks. They also have the ability to detect a variety of malware variants. Many tools automate the process of remedying these issues, but others guide users through known resolution processes.

Many incident response solutions function similarly to security information and event management (SIEM) software, but SIEM products provide a larger scope of security and IT management features.

To qualify for inclusion in the Incident Response category, a product must:

- Monitor for anomalies within an IT system
- Alert users of abnormal activity and detected malware
- Automate or guide users through remediation process
- Store incident data for analytics and reporting

Incident Response Grid® Scoring Description

Products shown on the Grid® for Incident Response have received a minimum of 10 reviews/ratings in data gathered by May 27, 2025. Products are ranked by customer satisfaction (based on user reviews) and market presence (based on market share, seller size, and social impact) and placed into four categories on the Grid®:

- Products in the Leader quadrant are rated highly by G2 users and have substantial Market Presence scores. Leaders include: KnowBe4 PhishER/PhishER Plus, Dynatrace, Datadog, Tines, Torq, Cynet - All-in-One Cybersecurity Platform, ServiceNow Security Operations, Palo Alto Cortex XSIAM, IBM Instana, CYREBRO, AlienVault USM (from AT&T Cybersecurity), Resolver, Barracuda Incident Response, and OneTrust Tech Risk & Compliance
- High Performing products have high customer Satisfaction scores and low Market Presence compared to the rest of the category. High Performers include: SpinOne, UnderDefense MAXI, Blumira Automated Detection & Response, Splunk On-Call, Defendify All-In-One Cybersecurity® Solution, SIRP, and DERDACK Enterprise Alert
- Contender products have relatively low customer Satisfaction scores and high Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Contenders include: InsightIDR, Sumo Logic, Proofpoint Threat Response, LogRhythm SIEM, Splunk SOAR (Security Orchestration, Automation and Response), Darktrace/Network, Splunk Synthetic Monitoring, and Mozilla Enterprise Defense Platform
- Niche products have relatively low Satisfaction scores and low Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Niche products include: Logpoint, Intezer, Proofpoint Threat Response Auto-Pull, TheHive, Resolve, Wazuh - The Open Source Security Platform, Activu vis|ability, D3 Security, Cyber Triage, and ASGARD Mangement System

Grid® Scores for Incident Response Software

The table below shows the Satisfaction and Market Presence scores that determine product placement on the Grid®. To learn more about each of the products, please see the profile section.

Leaders

	# of Reviews	Satisfaction	Market Presence	G2 Score
KnowBe4 PhishER/PhishER Plus	413	100	89	95
Dynatrace	251	57	93	75
Datadog	105	51	97	74
Tines	84	86	58	72
Torq	48	84	56	70
Cynet - All-in-One Cybersecurity Platform	120	74	63	69
ServiceNow Security Operations	20	60	76	68
Palo Alto Cortex XSIAM	251	51	82	66
IBM Instana	26	56	75	66
CYREBRO	93	73	56	65

Cyber Triage	15	14	21	17
ASGARD Mangement System	13	3	19	11

* Products are ordered by G2 Score. Satisfaction score is used as a tiebreaker if two products have the same G2 Score.

Grid® Methodology

Grid® Rating Methodology

The Grid® represents the democratic voice of real software users, rather than the subjective opinion of one analyst. G2 rates products from the Incident Response category algorithmically based on data sourced from product reviews shared by G2 users and data sourced from third parties.

Technology buyers can use the Grid® to help them quickly select the best products for their businesses and to find peers with similar experiences. For sellers, media, investors, and analysts, the Grid® provides benchmarks for product comparison and market trend analysis.

Grid® Scoring Methodology

The Grid® Report for Incident Response | Summer 2025 is based on reviews collected through May 27, 2025. We apply unique algorithms to this data to calculate Satisfaction (v4.0) and Market Presence (v7.0) scores for the Summer 2025 report quarter. To view the Incident Response Grid® with the most recent data, please visit the Incident Response page. For more details on Grid® Scoring, please view the G2 Scoring Methodology here.

Grid® Categorization Methodology

Making G2 research relevant and easy for people to use as they evaluate and select business software products is one of our most important goals. In support of that goal, organizing products and software companies in a well-defined structure that makes capturing, evaluating, and displaying reviews and other research in an orderly manner is a critical part of the research process.

To manage the process of categorizing the software products and the related reviews in the G2 community, G2 follows a publicly available categorization methodology. All products appearing on the Grid® have passed through G2's categorization methodology and meet G2's category standards.

Many terms that appear regularly across G2 and are used to aid in product categorization warrant a definition to facilitate buyer understanding. These terms may be included within reviews from the G2 community or in executive summaries for products included on the Grid®. A list of standard definitions is available to G2 users to eliminate confusion and ease the buying process.

Rating Changes and Dynamics

The ratings in this report are based on a snapshot of the user reviews and third-party data collected by G2 up through May 27, 2025. The ratings may change as the products are further developed, the sellers grow, and as additional opinions are shared by users. G2 updates the ratings on its website in real time as additional data is received, and this report will be updated as significant data is received. By improving their products and support and/or by having more satisfied customer voices heard, Contenders may become Leaders and Niche sellers may become High Performers.

(Grid® Methodology continues on next page)

** Net Promoter, Net Promoter System, Net Promoter Score, NPS and the NPS-related emoticons are registered trademarks of Bain & Company, Inc., Fred Reichheld and Satmetrix Systems, Inc.

Grid® Methodology (continued)

Trust

Keeping our ratings unbiased is our top priority. G2 follows defined community guidelines to ensure privacy, and authenticity for users and reviews. For more details, please view the G2 Community Guidelines here.

Grid® Inclusion Criteria

All products in a G2 category that have at least 10 reviews from real users of the product are included on the Grid®. Inviting other users, such as colleagues and peers, to join G2 and share authentic product reviews will accelerate this process.

If a product is not yet listed on G2 and it fits the market definition above, then users are encouraged to suggest its addition to our Incident Response category.

Product Profiles

Product profiles and detailed charts are included for products with 10 or more reviews.

KnowBe4 PhishER/PhishER Plus

4.6 ★★★★½ (524)

Grid Leader

KnowBe4 PhishER/PhishER Plus has been named a Leader based on receiving a high customer Satisfaction score and having a large Market Presence. KnowBe4 PhishER/PhishER Plus received the highest Satisfaction score among products in Incident Response. 97% of users rated it 4 or 5 stars, 94% of users believe it is headed in the right direction, and users said they would be likely to recommend KnowBe4 PhishER/PhishER Plus at a rate of 91%. KnowBe4 PhishER/PhishER Plus is also in the Security Orchestration, Automation, and Response (SOAR) category.

Feature Comparison for Incident Response (continued)

G2 users have evaluated the following products by feature. Feature ratings are representative of reviewers overall satisfaction with each feature and do not necessarily take into account the breadth of individual product features. The results are shown below.

Management

	Incident Alerts	Database Management	Workflow Management
Splunk On-Call	N/A	N/A	N/A
Defendify All-In-One Cybersecurity® Solution	93%	N/A	N/A
SIRP	95%	90%	94%
DERDACK Enterprise Alert	97%	90%	93%
InsightIDR	93%	89%	88%
Sumo Logic	89%	84%	84%
Proofpoint Threat Defense	89%	86%	93%
LogRhythm SIEM	90%	89%	88%
Splunk SOAR (Security Orchestration, Automation and Response)	90%	83%	87%
Darktrace/Network	N/A	N/A	N/A
Splunk Synthetic Monitoring	91%	84%	80%
Mozilla Enterprise Defense Platform	96%	88%	88%
Logpoint	88%	86%	85%
Intezer	N/A	N/A	
Proofpoint Threat Response Auto-Pull	95%	78%	78%
TheHive	86%	86%	84%
Resolve	94%	91%	N/A

(Feature Comparison for Incident Response continues on next page)

*N/A is displayed when fewer than five responses were received for the question.

**A blank box indicates that a seller has selected that they do not offer that feature.

Feature Comparison for Incident Response (continued)

G2 users have evaluated the following products by feature. Feature ratings are representative of reviewers overall satisfaction with each feature and do not necessarily take into account the breadth of individual product features. The results are shown below.

Management

	Incident Alerts	Database Management	Workflow Management
Wazuh - The Open Source Security Platform	88%	81%	81%
Activu vis|ability	N/A	N/A	N/A
D3 Security		91%	91%
Cyber Triage		86%	
ASGARD Mangement System	86%	78%	81%
Average	91%	86%	88%

*N/A is displayed when fewer than five responses were received for the question.

**A blank box indicates that a seller has selected that they do not offer that feature.

Additional Data for Incident Response

The table below includes a breakdown of the customer segments for each product, as represented by G2 reviewers.

Customers by Size

	Small Business (50 or fewer emp.)	Mid-Market (51-1000 emp.)	Enterprise (>1000 emp.)
KnowBe4 PhishER/PhishER Plus	11%	75%	14%
Dynatrace	10%	29%	61%
Datadog	18%	46%	36%
Tines	20%	35%	45%
Torq	31%	40%	29%
Cynet - All-in-One Cybersecurity Platform	38%	51%	12%
ServiceNow Security Operations	20%	10%	70%
Palo Alto Cortex XSIAM	17%	27%	55%
IBM Instana	12%	54%	35%
CYREBRO	25%	62%	13%
AlienVault USM (from AT&T Cybersecurity)	15%	67%	19%
Resolver	11%	29%	60%
Barracuda Incident Response	23%	54%	23%
OneTrust Tech Risk & Compliance	46%	39%	14%
SpinOne	62%	35%	4%
UnderDefense MAXI	15%	69%	15%
Blumira Automated Detection & Response	31%	60%	9%
