

## Customer Story

"Compliance Plus will help keep you and your employees out of hot water"

 Score 9 of 10

### Why Mark Needed KnowBe4 Compliance Plus

"Prior to KnowBe4's compliance training content our employees were not receiving any training on compliance or security. We're now able to complete multiple trainings per year on a variety of subjects and with the built in tracking we're able to ensure that all of our employees are receiving and completing all of the training."

### How Mark Uses KnowBe4 Compliance Plus

"KnowBe4 Compliance Plus has worked very well in the scenarios that we use it for with Ethics, Compliance, and Harassment training. Until we started using Compliance Plus we didn't have any training on these topics. The ability to track our employees completion has helped to ensure that everyone is completing it."

### What Mark Likes Most About KnowBe4 Compliance Plus

"The training campaigns are very easy to set up and monitor. The training modules are very well done and easy to understand and complete. Many have quizzes to verify our employees understand the material. KnowBe4 Compliance Plus makes it very easy to train our employees simply because it is all from one platform. We don't need to use different products for the training. We started with KnowBe4 for security training and added Compliance Plus after seeing how effective it was."

### What Mark Has Achieved With KnowBe4 Compliance Plus

- "We had no compliance training prior to Compliance Plus"
- "90% Completion rates consistently"
- "Zero Harassment claims"
