

KnowBe4

Customer Story

  Score 10 out of 10

 Vetted Review  Verified User

“KnowBe4's [Compliance Plus] is the only training I have used that doesn't feel like you are reading or watching content from the 20th century.”

Why Blake Needed KnowBe4

“Our company implemented KnowBe4 several years ago for security awareness training. Being able to easily identify a malicious email is one of the most important ways to keep an organization safe.”

How Blake Uses KnowBe4

“Every quarter we complete our assigned courses to ensure we are knowledgeable of the latest threats and know how to protect/defend ourselves to keep our environment safe. Their compliance content is informative and to the point. It highlights the critical topics to keep you informed and up to date on the latest developments.”

What Blake Likes Most About KnowBe4

“Having compliance training and security training all on the same platform is extremely beneficial. Having all the tests in the same place offers the end user the confidence and comfort that they aren't falling victim to a phishing scam. It is also easiest for the end user to have familiarity with one platform.”

What Blake Has Achieved With KnowBe4

“Since using KnowBe4 we have not had any security incidents. The excellent content puts [KnowBe4] ahead of their competitors and provides a good “bang for your buck”. And honestly, knowing your employees are provided with the proper up-to-date training material and education is invaluable in ensuring they are well informed, reducing your company's overall compliance risk.”

Blake's Advice

“Overall value is the most important factor a company uses to choose the right provider and KnowBe4 is, in my opinion, the industry leader in value provided.”
