

KnowBe4's SecurityCoach: Top 10 Integrations

SecurityCoach integrates with KnowBe4's new-school security awareness training platform and your existing security stack to deliver immediate feedback to your users at the moment risky behavior occurs.

SecurityCoach uses standard APIs to quickly and easily integrate with popular security products from vendors like CrowdStrike, Microsoft, Cisco, Netskope, Zscaler and more. Our ecosystem of technology partnerships is rapidly expanding to support our customers and strengthen their human firewall.
