

Compliance Training That Engages Your Employees

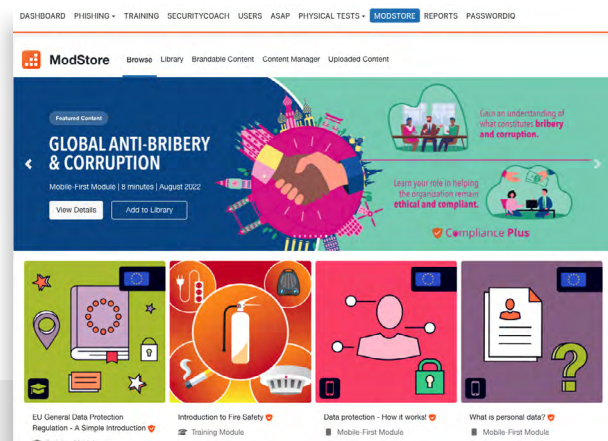

Why Consider Compliance Plus from KnowBe4

If you're responsible for compliance training, you likely have limited resources but need to provide your organization's workforce with a productive, positive work environment.

One of the most critical factors of meeting compliance requirements is your users' understanding of those requirements and actually applying them on the job.

Unfortunately, typical compliance training is uninteresting at best, usually only done once per year, and less than engaging, making it harder for employees to learn. Additionally, linking compliance training to specific outcomes has been hard, and many executives disagree that compliance training has a positive effect on their culture.

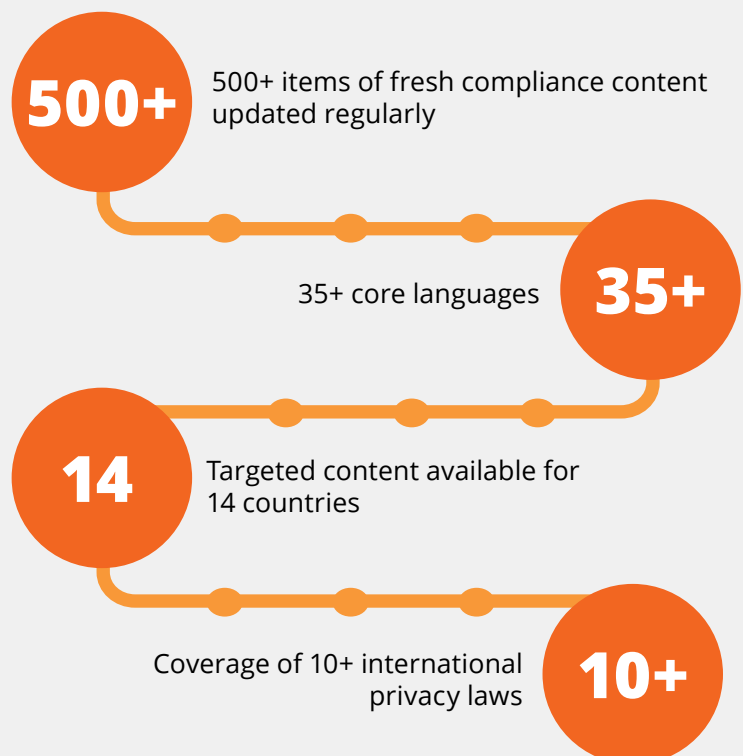

That's why KnowBe4 created Compliance Plus, a training library tuned to your specific compliance needs with expert-created content that covers a wide variety of vital topics. Learn more about how Compliance Plus can help you change risky employee behavior and improve your corporate compliance culture.

How Compliance Plus Helps

- Save your employees time by providing an integrated, cohesive learning experience combining both security awareness and compliance training in a single platform at a lower cost
- Tailor compliance training based on departments and/or teams to ensure your employees remember what they learn
- Build a comprehensive approach to both security and compliance training to lower the risks associated with fines, reputational damage and loss of customers

Compliance Plus By the Numbers

What Compliance Plus Customers Are Saying

"The quality of the content is high...We have seen fewer instances of employees not adhering to the requirements after completing their training."

-Director of IT, Higher Education

"Having the ability to have all of my compliance and security met in one place is not only a great option, but one that helped me solidify the aspect of 'thinking and acting like an owner'..."

-Security Awareness Manager, Finance Industry

"KnowBe4 Compliance Plus has been helpful for having all of our training in one place, on a platform that our team members know and understand."

-Director of IT, Technology Industry

The Bottom Line

Compliance Plus is new-school compliance training that is fresh and educational. The training includes live-action video scenarios and interactive aids to help your users recognize and identify situations and issues that threaten the compliance landscape in your workplace. Our team consults with legal experts to provide the most current, relevant content.

Compliance Plus training covers varied statutory and regulatory changes in compliance topics while maintaining our high standards for quality and learner retention and engagement. Compliance Plus includes various media formats and reinforcement materials to support your compliance training program.
